

A School Lunch Catering Service

Our Story...

Started when we realized that even though the attempt to make healthy school lunches is there, it wasn't as tasty or it wasn't all that fun. We set out to solve this problem, starting where? The kitchen of course! Teaming up with a certified nutritionist, we created meals that were approved by health experts, but most importantly were loved by the kids that would be eating them. After many burnt dishes and taste buds tested to the extreme, we found the recipes that our customers love.

I'm **Orlando** and I can be pretty picky at times. If I don't recognize it, I'm not sure I'd give it a try. But this **Three Cheese Baked Macaroni** looks even better than that stuff from the box. I bet it's healthier, too!

Hi, sweetie pie! I am **Maya** and I love, love, love anything sweet! I think that's why I am digging these **Chewy No Nut Granola Bars**. A super yummy AND healthy snack!

Chicken Fried Rice

Hey, guys! My name is **Bali** and I love ALL kinds of food. I will try almost anything! I don't know about you, but this **Fajita Rice Bowl with Bell Peppers and Corn** is looking pretty tasty to me. A balanced meal that's full of flavor!

What we can do for YOU and your kids...

- Time** Give back your time to enjoy as you please, while we take care of preparing lunches.
- Health** You can be assured that we use fresh ingredients, organic when possible, and nothing artificial.
- Taste** The pickiest kids will find something they love.
- Fun And Teach** The cheerful characters of The Lunch MOB, as well as our resident nutritionist, will educate kids about healthy eating.
- Give Back** You can feel good knowing that with every complete meal you purchase, we will donate to your school.

Get Fresh with The MOB!

There is a nationwide kick to get kids eating healthier in school. And yet, the available choices just aren't good enough to satisfy their tastes. No question there is great value for kids to eat whole foods that are NOT pumped up with junk and preservatives. By truly focusing on the ingredients and how they are put together, we made it OUR mission to create **fresh** meals that kids love, with the **nutrition** that kids need.

WHAT MAKES US UNIQUE:

We put a healthy twist on kids' favorites like burgers and pasta. We offer "non-beige" and colorful scratch-made entrees, keeping in mind a child's developing palate. We create kid-friendly stories about healthy choices with The Lunch MOB characters.
