BrainStorm STEM EDUCATION

STEM FOR SCHOOLS
In-class Academic Enrichment Programs

PREPARE YOUR STUDENTS FOR A SUCCESSFUL FUTURE

Keeping current with STEM technology makes bringing the very best programs to schools challenging and costly. That's where we come in!

What we do

BrainStorm is focused on introducing students to the challenge and promise of STEM, by providing an educational experience that will inspire them to apply classroom learning to the real world! Real STEM. Real FUN!

Hands-on Discovery
Our hands-on experiences are standards aligned and allow students to explore the entirety of STEAM with more than 100 available lessons.

Educational Excellence

☑ Our technology and tools are state-of-the-art and constantly evolving.

☑ Our curriculum development is non-stop and data-driven to provide the latest teachings.

☑ Our program provides schools and their students with a structured path for every grade and skill level.

☑ BrainStorm's staff is comprised of credentialed teachers, engineers, programmers, and more who all have strong passions for their fields.
